

COMPANY OVERVIEW

ABA-CON designs, builds and installs custom aviation fuel storage equipment. Additionally, we provide maintenance and repair as requested.

Burnie Whitten and Ardy Ballard started ABA-CON in November of 2008. Stephen Reaves joined the company in early 2009

Burnie Whitten has worked in the Aviation Fuel Storage industry for over 45 years. He has worked with large corporate airlines and owned a previous fuel storage company for 20 years. Burnie holds a Florida State Certified Pollutant Storage License.

Ardy Ballard has been in the Aviation Fuel Storage business for over 30 years and holds a Florida State General Contractors License. Ardy's experience includes design and specification development of aviation fuel system storage and distribution systems.

Stephen Reaves has over 20 years' experience as a project manager. He manages all construction projects with on-site administration and proper quality control for ensuring projects are completed on time and due budget. Additionally, Stephen provides necessary coordination and planning for contractors and subcontractors.

Between the three of them they have designed and installed over 500 fuel systems. These systems are located within the Continental US, Alaska, Puerto Rico, Bahamas, South Africa and South

Our target market is the general and corporate aviation industry. Customers are attracted to our product because of the quality, ease of use and safety features. When a tank is designed and built by ABA-CON customers know they are getting the very best for the price.

CAPABILITIES

Design & Build custom aviation fuel storage equipment.

- Above Ground Tanks
- Under Ground Tanks
- Cabinets & Skids

Hydrant Systems

- Pit Installs
- Hot Taps for laterals to new pits
- Hydrant Line Abandonment

THE TEAM

Arden Ballard – President

- 30 Years' experience, and as Director of Operations at Fuel Tech he was key in design of equipment and quality control.
- A verifiable track record for the successful completion of projects through coordinating trades, developing partnerships and building positive rapport with customers and vendors while maintaining costs.
- State Licensed General Contractor

Stephen Reaves – Vice President of Construction

- 20 Years as Project Manager. Quoted and managed turn key jobs
- Certified Welder
- STI Certified tank inspector
- Trained on installing and repairing Applied (QT), Fuel Master.

Burnie Whitten - Consultant

- Owned and operated Fuel-Tech Inc from 1989-2006. With the help of his family, his knowledge of fuel installations, and fuel trucks the company grew to an average of over 6 million in sales annually. In 2003 he sold the company and retired in 2006.
- Total 45 years experience in Aviation Industry
- State Licensed Pollutant Storage Contractor
